THE CLIFFORD ADVANTAGE

SERVICE PROFESSIONALS

As a critical piece of equipment, how a generator set system is supported is vitally important. The generator user's most important purchase decision should be the quality of after-market support behind their generator.

As a preferred leader in the power generation industry, Clifford Power Systems®, Inc. is dedicated to providing customers with service above and beyond their expectations. We have established a premium level of service recognized by our peers and our long list of repeat clients. Our ability to provide outstanding support for our products is the result of dedicating the necessary resources in people, facilities and equipment.

PEOPLE ADVANTAGE

Our people in all areas of parts, service, rental and sales are the best trained and most experienced in our industry. We have recruited and trained the talent needed to give our clients the best advice about the power system to meet their needs and to ensure the equipment provided is ready at all times to operate as it was designed and built to do.

- More technicians for responding effectively to multiple calls during widespread power interruptions
- Sales personnel to assist you in choosing the most suitable power system
- Service personnel to ensure your equipment is maintained and ready to perform
- Parts team trained to ensure equipment is never out of service due to unavailable parts supplies
- Rental department experienced in the power requirements for your temporary power needs

EQUIPMENT ADVANTAGE

Each of our branches is equipped with the tools and test equipment necessary for the highest standard of service and maintenance. Clifford Power Systems®, Inc. provides premium service by ensuring our technicians are fully trained to operate the latest diagnostic and service equipment.

Our Mission Statement

"Clifford Power Systems®, Inc. is committed to be the preferred leader in the power generation industry. We will fulfill this mission by providing our customers with service above and beyond their expectations."

The Best Provider of Power

MORE TECHNICIANS - FULLY STOCKED VEHICLES

YOUR COMPLETE SERVICE PROVIDER - FOCUSED ON POWER

TRAINING - RETAINING THE BEST TEAM IN THE INDUSTRY

Clifford Power Systems®, Inc. is focused on having knowledgeable technicians. We continue to train our technicians internally throughout each year. Our technicians are certified to work on a variety of generator brands including Generac®. We pride ourselves on our versatility. We are not focused on one make of generator. We service all. We are committed to train our people; not only on Generac® but on all the major manufacturers.

Training applies to all departments of Clifford Power Systems®, Inc. with particular emphasis in the areas of product and customer support such as service, parts and rental.

EXPERTISE, SIZE & STRENGTH

Clifford Power Systems®, Inc. is dedicated to being the best in its field. As power experts, we have assembled a team that has the experience, training and technical expertise to make us the best provider of off-utility power.

Our company has been in business for more than a quarter century. In this time we have assembled the facilities, equipment, expertise, experience and extensive client base to justify the claim that we are the best at what we do.

In addition to experience, Clifford Power Systems®, Inc. has the size to maintain the resources needed to remain the best at providing and supporting reliable power systems. We have been around for many years and intend being around for many more.

We only represent premium lines such as Generac® Industrial Power. Our clients are assured quality support of quality products. We can service any manufacturer with our trained personnel.

YOUR COMPLETE SERVICE PROVIDER - FOCUSED ON POWER

We are a company only focused on power. For many others, providing power is secondary to their main activities. The service department of Clifford Power Systems®, Inc. has only one objective, to support our customers power systems. By focusing on power, we ensure our expertise is not diluted on unrelated activities.

PARTS - Replacement Parts for all Brands and Models

Clifford Power Systems®, Inc. carries a full range of parts in all our branches throughout the southern central United States including Texas, Oklahoma and Arkansas.

The parts team at Clifford Power Systems®, Inc. understands that downtime on power systems is a critical issue. Our expertise and processes for parts management ensure we have the appropriate parts inventory. Parts availability is critical for minimizing downtime during scheduled or unscheduled maintenance.

Whether for service or routine maintenance, we have the parts to keep you running. Our parts department is driven by quality, availability and service.

CLIFFORD - EMERGENCY RESPONSE CAPABILITY- HIGHLY TRAINED

THE CLIFFORD ADVANTAGE

WE RENT POWER

Clifford Power Systems®, Inc. is a full-service company that rents and sells air conditioners, heaters and generators. Our team of rental specialists have considerable experience in supplying rental power to numerous applications.

RENTAL ADVANTAGE

We can help you size properly the correct size unit for your application and that it is fully equipped to do the job. Our comprehensively trained team of rental professionals and technicians are on hand to design the most efficient and affordable custom system for your unique power needs:

RENT FROM THE EXPERTS

State-of-the-art equipment, and customer support from Clifford Power Systems®, Inc. known for world-class customer service and support.

Rental equipment, features and services offered include:

- Top quality equipment, expertly maintained

RENTAL GENERATOR SET FEATURES

Clifford Power Systems®, Inc. technicians are fully trained on power generation systems and will work with you to determine your power requirements. Features of our rental sets include sizes from 15kW to your maximum power requirement, the most reliable and best quality power generation equipment, weatherproof enclosures, built-in fuel tanks and a wide range of trailer-mounted units.

“Clifford Power Systems®, Inc. is a generator company. We are not a rental yard that happens to have generators. We specialize in generators only. Our people know and understand the generator rental business”

Rental Manager, Clifford Power Systems®, Inc

Your Power Solutions Company

RENTAL SPECIALISTS - LONG TERM - SHORT

YOUR COMPLETE RENTAL POWER SOURCE

COMPLETE AIR CONDITIONING AND HEATING RENTAL SYSTEMS

Clifford Power Systems®, Inc. representatives are fully trained on rental air conditioning and heating units and will work with you to determine the required equipment for your rental application. Whether the need is for a scheduled outdoor event or created by a natural disaster, we have the complete power, air conditioning and heater systems required. Our team of rental specialists is very experienced in quickly providing your full rental needs resulting from disasters caused by weather, nature or man.

Air Conditioning Setup for Outside Location

SIZING an A/C and HEATER SYSTEM

Heating or Cooling Tents can present unique challenges. Since tents are temporary structures with little or no insulation properties, it is important to properly evaluate and make recommendations so the expected cooling or heating results are obtained. You can rely on our team to walk you through all the requirements of sizing and ensuring you have a complete ready-to-go rental system.

RENT FROM THE ONE STOP SHOP FOR ALL RENTAL APPLICATIONS

Never mind the event, power requirements or application; we have the equipment to meet our clients' rental needs.

Our knowledgeable staff is available to assist you with all your requirements from electrical power distribution

and air conditioning to ADA ramp access and trailer wheel locks.

We will supply distribution panels including spider boxes, duplex receptacle panels, quad boxes, 4P to 10P panels and RV distribution.

INFORMATION SHEETS - Your Source for Generator Technical Information

To fulfill our commitment to be the leading supplier and preferred service provider in the Power Generation Industry, the Clifford Power System®, Inc. team maintains up-to-date technology and information standards on Power Industry changes, regulations and trends.

Our Information Sheets are circulated on a regular basis as a service to existing and potential Power Customers to maintain awareness of changes and developments in engineering standards, electrical codes, and technology impacting the Power Generation Industry.

Your Power Solutions Company

EXPERTISE - CONSULTING/SYSTEM DESIGN

YOUR COMPLETE POWER PROVIDER

SUPPLYING AND SUPPORTING THE COMPLETE POWER SYSTEM

Clifford Power Systems®, Inc. has put together a team that works with the client from design to the final installation stage of a power system. You can rely on the application knowledge of our sales department, backed by experienced technicians, to assist you in determining the best power system for your individual application.

Application assistance is provided for the complete system including the generator, controls and fittings that make up a complete installation. Our expertise is in putting together a total system uniquely designed for the individual application.

Standby Power for Radio Station

As a GENERAC® Industrial Power Dealer, we have a business partner that shares our values and is committed to being a leader in our industry. A few examples of Generac's leadership include, being at the forefront in the transition to digital controllers, the first to certify the full product line to UL2200, developed the Modular Power System (MPS) for larger kW requirements, and becoming the undisputed leader in the residential standby market.

TECHNICAL/APPLICATION SUPPORT

We have a staff of specialized technicians whose primary duty is to provide technical assistance to our organization and our customers. This group keeps our technical teams informed on the latest literature and technology. The group is also available to help customers through any immediate needs over the phone. They are also available 24/7 through our after-hours network.

PREMIUM DEALER FOR A PREMIUM MANUFACTURER

Clifford Power Systems®, Inc. is fully vested in our markets. We are also the best service provider in our served markets and can prove it by providing unmatched service. Contact the nearest branch with your power needs to experience firsthand the Clifford Power Advantage.
